

WORRY ME NO MORE (allen kitselman)

Worn out from the days of feeling down and out  
After suffering these nights of little sleep  
I'm going to make a change like a lightning bolt in this old house  
Here ends your power over me  
*Here's the incantation, here's the magic spell*  
*Here ends the grip you hold so tight*  
*Things will be just what they will be in the end*  
*So it doesn't help me if you spend the night, so don't*  
Worry, worry me no more :!

Money's not my God, but he's a friend of mine  
He's got a seat but he don't run the show  
When you two get together you about wear me out  
Thinking how much, not enough, where did it go?  
*Here's the incantation, here's the magic spell*  
*Here ends the grip you hold so tight*  
*Things will be just what they will be in the end*  
*So it doesn't help me if you spend the night, so don't*  
Worry, worry me no more :!

**There's no use for me crawling around in circles when I've got some  
place to go  
Worry you don't do a damn thing but keep you in the hole  
.....So just let me go**

Children are the paper boats we float out on the pond  
At 20 they float out beyond your reach  
They will make their own mistakes and meet you for them self  
So teach them all the tricks that we can teach  
*Here's the incantation, here's the magic spell*  
*Here ends the grip you hold so tight*  
*Things will be just what they will be in the end*  
*So it doesn't help me if you spend the night, so don't*  
Worry, worry me no more :!
